

BIG MEET10

Tuesday 21 January 2020, 13:30 - 17:00

MacMillan Hall @ Senate House
Malet Street
WC1E 7HU, London

Housing design quality and launch of *"A Housing Design Audit for England"*

Kindly sponsored by the Campaign to Protect Rural England and the Home Builders Federation

Big Meet 10 focusses on the critical question of housing design quality – what sort of housing environments are we creating today, and how can we strive to do better in the future? The conference will be structured around the launch, discussion and reflection on *"A Housing Design Audit for England"*.

This is the first national housing design audit and the first large scale audit for over 12 years. It covers 142 schemes across all regions of England. The conference intends to be both honest and constructive.

Ultimately it will challenge attendees to identify what tangible actions we can take together to improve the design of the new residential environments that the nation so clearly needs.
